August 2016

Annual AHERA Notification to all Employees and Parents/Guardians.

As a result of federal legislation (Asbestos Hazard Emergency Response Act) the Waterville Public Schools are required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos containing building material. The Waterville Public Schools have worked diligently to be in full compliance with this law. We are determined to maintain a safe and healthy environment for all students and staff.

Federal Law requires a periodic walk through every six months of each area containing asbestos. The law also requires the building be reinspected every three years. The school department has a list of locations and types of asbestos containing material found in each building. A copy of the Asbestos Management Plan is available for review in the school office. If you have any questions or concerns please call the Superintendents Office 873-7048.

Thank You
